Since its founding in 2013, Baumgarten Byström Rooth & Partners Advokater has expanded rapidly. We aim to continue this growth, and we are seeking additional Associates who fit our profile.

Our ambition is two-fold: to be our clients' first choice for their most complex and challenging transactions, and to be among the best and most respected transaction firms in the Nordic market. We aim to grow to between 20 and 30 lawyers within two to three years.

Because of our firm's structure and the engagement of our partners, we strongly believe that we offer Associates unparalleled opportunities for the development of their legal skills, business acumen, and client relationship skills. As an Associate, you will have the opportunity to and be expected to actively contribute to the development and success of a firm that aspires to be at the forefront of the Nordic M&A and private equity scene.

### Qualifications and personal characteristics

We are looking for highly-motivated, service-minded team players who aspire to work within corporate M&A, private equity buy-outs, acquisition finance and capital markets. The right candidate has the ability and the ambition to grow with our firm. Vital personal characteristics include dedication, drive, versatility and unpretentiousness. Associates are expected to possess strong social skills in addition to analytical and legal skills.

As the ideal candidate, you are open-minded to legal and commercial cultural differences, and you have a solution-oriented mindset. You are ready to challenge yourself to think and act without regards to the usual hierarchies prevalent within full-service law firms.

### As an overview, and depending on seniority, we have the following key requirements of Associate candidates:

- Swedish Master of Laws (LL.M./*juristexamen*), or corresponding foreign law degree
- broad understanding of corporate/commercial law, credit security and insolvency law
- experience from at least the Trainee level at a law firm in the M&A/Corporate or Banking & Finance practice; alternatively, experience as in-house legal counsel at a corporation or financial institution with emphasis on M&A or financing
- up to 6 years of post-qualified experience
- excellent analytical skills and academic record
- fluency in written and spoken Swedish and English

We view the following as additional merits:

- international experience (preferably from the US or UK) as an associate or legal counsel
- secondment in relevant industries, such as banking/finance, private equity or similar
